

The the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

--Since Indiana made the 'No Call' list available we have seen the number of telemarketing calls dramatically reduced.

--We used to receive 8-10 calls per week, now we very seldom get a call!!

--Please do not pass any laws that will override the law that Indiana already has on the books. If you must pass a law to protect citizens in states with no telemarketing laws, make a provision to allow current state telemarketing laws to work in conjunction with your new federal law.
